

HOW TO VIEW AND CLAIM YOUR DYOR PEPE ASSET (= NFT)

View XCP asset on paper wallet

1. Scan **PUBLIC LINK** QR code on paper wallet to view address on <https://xchain.io>
2. Click on "asset" to view artwork

Claim XCP asset from paper wallet

0. Open browser and go to <https://freewallet.io/>
1. Download freewallet.io desktop app
2. Create new wallet by writing down 12 word seedphrase
3. Scan paper wallet's **PRIVATE KEY** with a local QR code scanner
4. Copy the alphanumeric private key so that it can be pasted into freewallet
5. In freewallet > address > change address > options > import private key
6. If wallet with asset has no Bitcoin, send approx. 20\$ in BTC to public key

! Copy/pasting of a private key is a security risk. Do not build a portfolio on the wallet with the imported private key. Rather sweep all assets from this wallet to a virgin wallet or your existing portfolio wallet for security reasons. > freewallet > address > sweep address!

To learn how to trade and sell your asset via XCP order book or dispenser, watch the tutorial videos on <https://robotlovecoffee.io/> and join the official counterparty chat on telegram https://t.me/Counterparty_XCP
